  - Saturday: By Appointment (Common for specialized clinics)
  - Sunday: Closed

## 3. Key Services (For Website "Services" Page)

Little Pet Vet is not a "standard" cat and dog vet. Their website should highlight expertise in:

- **Small Mammal Wellness:** Routine check-ups, weight monitoring, and nutritional advice specifically for rabbits and guinea pigs.
- **Specialized Surgery:** Desexing (spay/neuter) for small animals, mass removals, and abscess treatments.
- **Dental Care:** "Burring" and dental surgery for rabbits and guinea pigs whose teeth never stop growing.
- **Paws Rescue Clinic:** A dedicated arm of the business that works with local rescue groups (like Perth Rescue Angels or rabbit-specific rescues) to provide low-cost or free care for homeless "little creatures."
